COVID-19 Plans for the Café

While understanding the significant impact COVID –19 has had on all of us, the WCSI Café didn’t want to stop supporting individuals with building connections. Beginning in September of 2020, the group went virtual. The group has hosted two successful virtual events and plans to continue in this fashion during the emergency pandemic.

“The WCSI CAFÉ has been a fairly new and fun collaboration of fellow co-workers who have created a place for clients to meet and make friends while staying true to WCSI’s mission and vision. It is amazingly awesome to see our client’s thrive in a virtual environment that they were able to create based on their choices in common interests, all while keeping and making new friends.”
